Tobermory

PADI DIVEMASTER
JUNE 19 - JULY 2, 2024

Divemaster - Tobermory

During the 14 day program you will learn at one of the most unique, immersive and diverse dive shops in the world. Learn from experienced instructors from Canada's dive industry.

Prerequisites:

- PADI Rescue Divers who are at least 18 years old can enroll in the Divemaster Program
- 40 logged dives to begin the course and 60 by certification
- CPR and First Aid Certification within 24 months
- A medical clearance to dive signed by a physician in the last 18 months

Why do your Divemaster in “The Shipwreck Diving Capital of Canada”

Tobermory offers the premier training ground for tomorrow's PADI Professionals.

Train in the cold water environment you will be teaching in and set yourself up for a successful career.

The crystal clear waters, staggering cliff faces and maritime history provide the backdrop for a remarkable instructor training experience!

PADI DIVEMASTER

Required Equipment

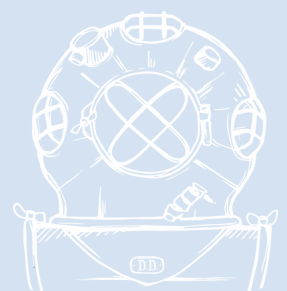

As a dive professional, you'll want to have all your basic scuba equipment, including a dive computer, dive knife and at least two surface signalling devices. During practical skills exercises, like underwater mapping and search and recovery, you'll use a compass, floats, marker buoys, lift bags and slates

You will learn...

- The role and characteristics of the PADI Divemaster
- Supervising dive activities and assisting with student divers
- Diver safety and risk management
- Divemaster conducted programs and specialized skills
- Business of diving and your career
- Awareness of the dive environment
- Dive setup and management
- Mapping an open water site
- Conducting dive briefings
- Organizing a search and recovery project and a deep dive
- Conducting a scuba review and skin diver course
- Assisting with Discover Scuba Diving
- Leading Discover Local Diving programs

- DM application and insurance

This schedule provides the DM Candidate with a guideline of what to expect. Schedule is subject to change at the instructor's discretion due to student needs, weather or other circumstances as deemed necessary.

PADI Divemaster Course - Tobermory

Frequently Asked Questions

Q: Why should I do my Divemaster training in Tobermory?

A: There is no question that if you plan to teach in cold water you should train in cold water. Tobermory is the “Shipwreck Diving Capital of Canada” and offers a unique destination for Divemaster training. Our facilities and diving locations are all a stone’s throw from each other providing convenience and efficiency. We also don’t have a pool! You’ll be doing all your training at The Tugs, the confined water training area located just outside the Tobermory Harbor. Training in cold water conditions provides you with the skill set to dive and teach anywhere in the world!

Q: Do I need a drysuit to dive and train in Tobermory?

A: While our water temperatures during peak season do lend themselves to wetsuits, it is important that you are comfortable and capable in a drysuit. Water temperatures at depth in Tobermory remain at around 4C/38F year round. In the shoulder season, the surface temperatures can easily dip down to 10C/50F. A drysuit is a critical component of your equipment if you plan to train and teach in cold water environments.

Q: What other equipment do I need for my Divemaster?

A: As a Divemaster candidate it is important that you are familiar with and own all your own equipment. This will include a wetsuit (7mm+), drysuit (optional), regulator, BCD, SMB & reel, flashlight, slate, mask/fins/snorkel, etc. If you have any questions about the equipment you’ll require, or are looking to purchase any of the required equipment, please contact us directly.

Q: What experience should I have to consider doing my Divemaster in Tobermory?

A: Divemasters are required to have a minimum of 60 dives in order to complete your Divemaster course. In our experience, a diver should have a number of cold water dives (cold water being less than 50F) in order to be sufficiently comfortable in this environment to be successful.

Q: Where will I stay while I’m on course?

A: Accommodation is the responsibility of the Divemaster candidate. We have partnered with a couple of local accommodators to assist you with this arrangement. Please contact us for details. You can also visit www.tobermory.com to view a full list of Tobermory accommodators through the Chamber of Commerce.
